RE: New Tariff for campgrounds

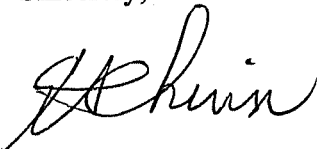

Dear Brent:

Please find a new Tariff for any new campsites that may be formed within our service area. This is an exception to our present tariff requiring one meter per dwelling.

We have a new summer campsite, which will consist of 10-15 weekend camper and have already been approved for wastewater disposal. The company is to lay their own main lines and the district is to install the master meter off a 3" PVC line which maintains approximately 100# as it is at the much lower elevation of any of our storage tanks.

I there are any question please contact me.

Sincerely,

Eddie A Chinn, Supt.
Bracken Co Water District
